EX.NO:05 WORKFLOW – LEAVE REQUEST

ROLL NO: 240701573

NAME: UMAR FAROOK K

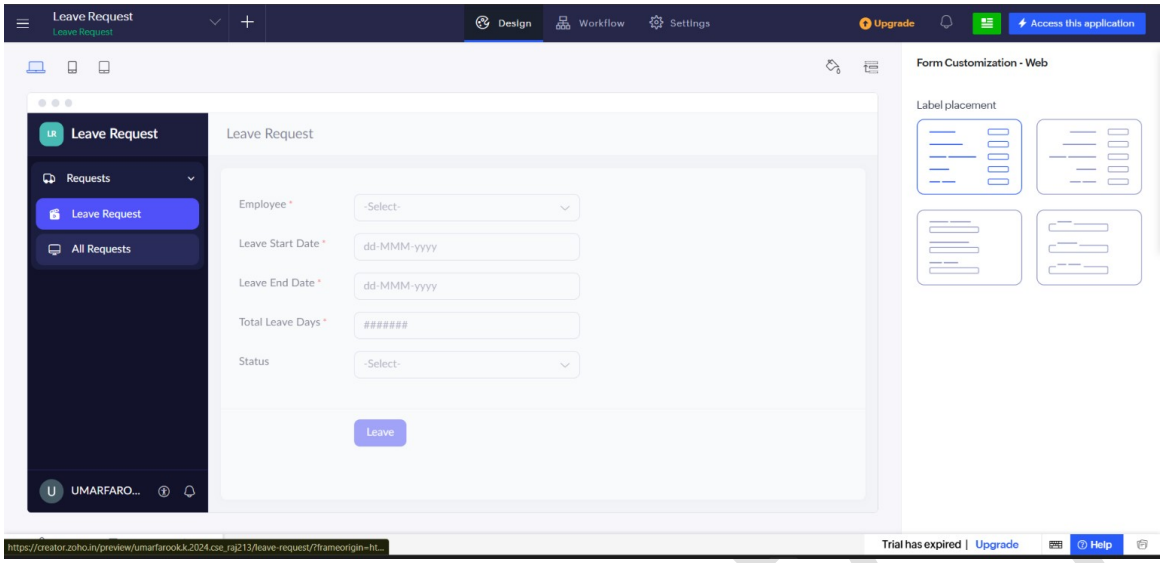

AIM:

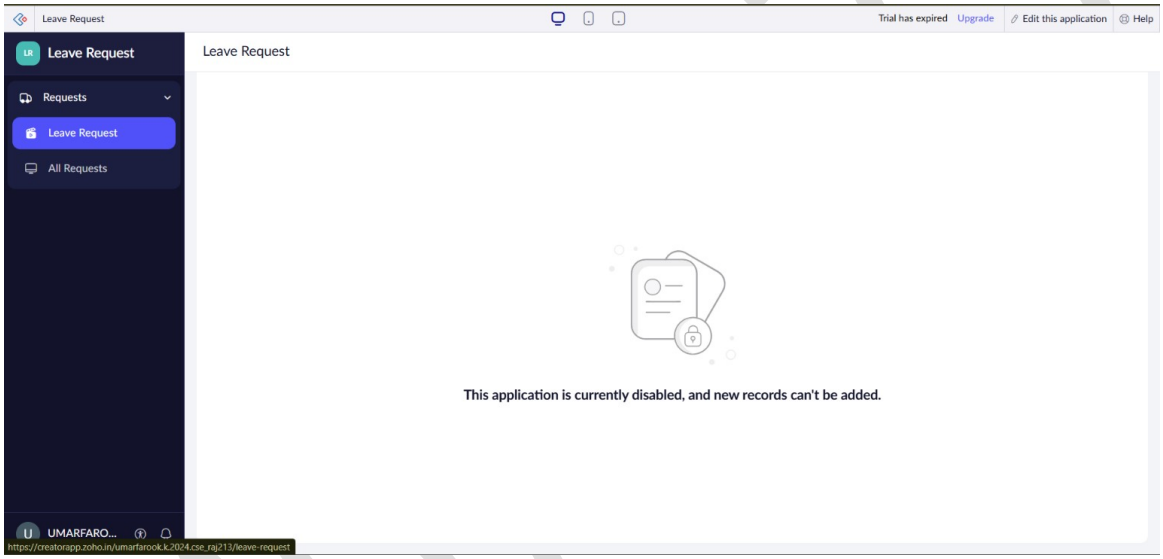

To create a Leave Request application in Zoho Creator and design a workflow that automatically sends an email notification to the Principal whenever a new leave request is submitted.

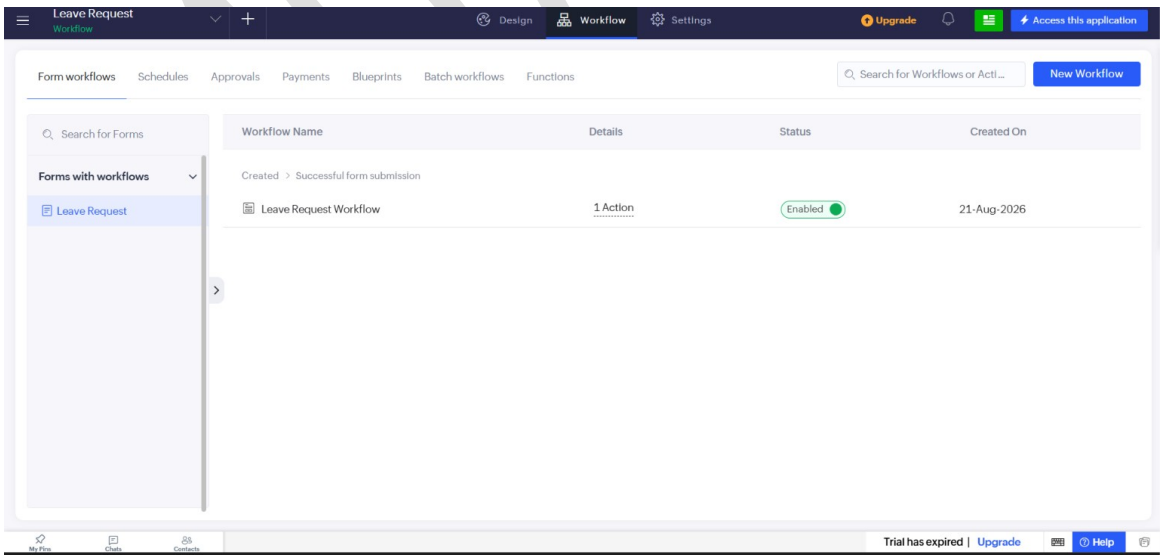

PROCEDURE:

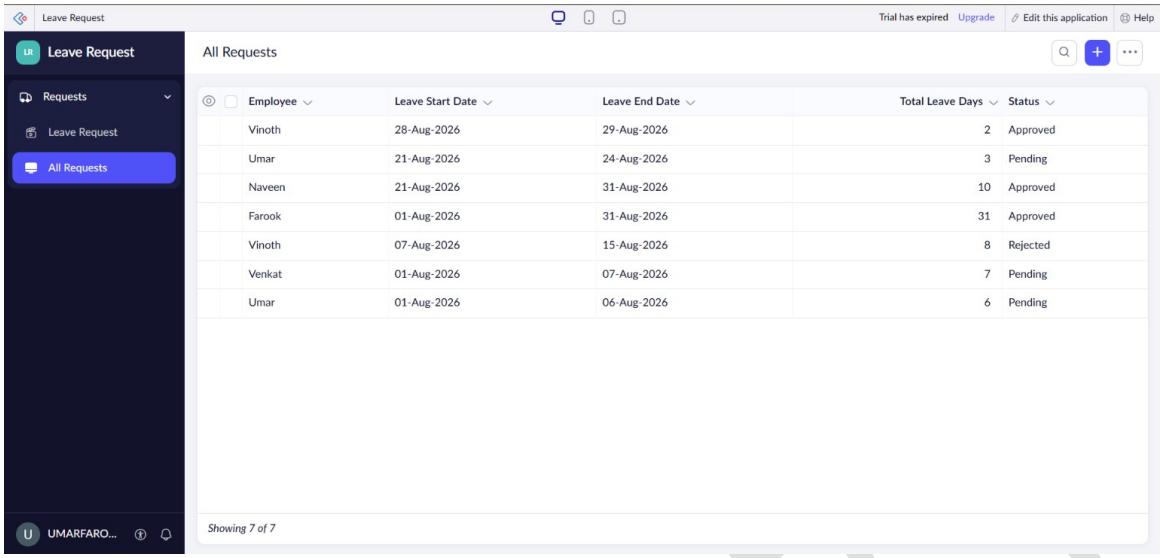

1. Sign in to Zoho Creator and create a new application named Leave Request.
2. Create a form named Leave Request with the fields Employee, Leave Start Date, Leave End Date, Total Leave Days and Status, and a Submit button.
3. Open the Workflow tab, select Form workflows and click New Workflow for the Leave Request form.
4. Name the workflow Leave Request Workflow and set it to run when a record is created on successful form submission.
5. Under the workflow, add a new action and choose Send Mail, with the action set to execute without any condition.
6. Configure the email: From as the admin user ID, To as the login user ID, and the Subject as New Leave Request Submitted.
7. Type the message "Dear Principal, A new leave request has been submitted" and insert the form fields Employee, Leave Start Date, Leave End Date, Total Leave Days and Status using Insert fields. Set the content type to HTML and click Update.
8. Click Done to save the workflow and make sure its status is Enabled.
9. Open the application, submit leave requests through the form, and verify the records in the All Requests report.

RESULT:

Thus, the Leave Request application was successfully created in Zoho Creator, and the workflow that sends an email notification to the Principal on every new leave request submission was configured and verified.
